

## Goals of this Section

*This is the introduction to the overall course and it contains the syllabus as well as grade information.*

By the end of this section students should be able to:

- Know the goals of the course.
- Understand what kinds of things to expect in this course.
- Be familiar with the Contextual Based Learning approach.
- Find the information they need that is contained in the syllabus.
- Know how grades are calculated for this course, and calculate their own grades at any point in the semester.
