Xronos Tutorial

This is the Xronos tutorial.

By the end of this section students should be able to:

- Understand how to enter Xronos answers using the answer box and the math editor.

- Know where to get help if they have a problem accessing or using Xronos.

- Know what to do if they suspect Xronos is not taking an answer they think is correct.

- Know which uf wifi networks will (and won't) work with Xronos.

- Be familiar with common problems like grades being updated, or errors in accessing Xronos, and what to do to fix them.

Learning outcomes:
